End Application:

Anfsn5

Product Name:

Temperature sensor

Special Features:

Warmed probe for superior performance in condensing environments; small, stainless steel, vapor-tight remote probe; temperature -70...+180deg c (-94...+356deg f); graphic lcd with backlight; 10...35vdc, 24 vac; 8 pole counter connector equipped with screw terminals; wall mounting plate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
