**End Application:**

Anfsn5

**Product Name:**

Temperature sensor

**Special Features:**

Warmed probe for superior performance in condensing environments; small, stainless steel, vapor-tight remote probe; temperature -70...+180deg c (-94...+356deg f); graphic lcd with backlight; 10...35vdc, 24 vac; 8 pole counter connector equipped with screw terminals; wall mounting plate

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23800
