Overall Length:

5.710 inches

Overall Width:

5.490 inches

End Application:

Automated weather observation system (awos)

Operating Range:

Operates over a range of 500...1100 hpa

Sensing Element Type:

Any acceptable

Product Name:

Pressure sensor

Special Features:

Uses barocap sensor (silicon capacitive), 3 pressure transducers, output options: rs 232c/ rs 485 / rs 422, no display, pressure connector: barbed fitting 1/8", pressure connector/transducer coupling: connector 1: p1 and p2 and p3, contains 4 mounting holes

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-a
