Usage Design:

Collects windspeed and direction, relative humidity (dew point) temperature, visibility, present weather, total precipitation, cloud hight, presence and direction lightning, runway visual range, barometric pressure (altimeter setting

Installation Design:

Fixed

Special Features:

Automatic collection of weather data for weather monitoring system, data sent via cable, radio, or fiber optics to pc/server running airport weather advisor, this an/fmq-19 version 2 uses taylor scientific wind monitors, this configuration is for colder climates

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

T206-d
