

View Online at <https://aerobasegroup.com/nsn/6660-01-586-7313>

Special Features:

Measures wind speed and direction with a 3-cup anemometer and wind vane; crossarm mounted; interfaces directly with campbell dataloggers; 0-50m/s range; 60m/s gust survival; 75cm turning factor; 2.3m distance constant; 0.5 m/s threshold; 1300 ohm resistance stationary coil, transducer; 16cm turning radius, balanced vane sensor; wind direction is sensed by a potentiometer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
