Current Type:

Dc

Accessory Components And Quantity:

Carrying case 1; lanyard 1; aaa bateries 2; certificate 1

Information Recorded:

Air temperature and pressure and relative humidity and temperature and wind direction and wind speed

Recording Method:

Digital reading

Special Features:

Measures: true/magnetic heading, wind direction, crosswind, head/tail wind, altitude, pressure trend, barometric, wet bulb temp, relative humidity, heat stress index, dewpoint, density altitude, wind chill, air/water/snow temp in c/f, air velocity; waterproof; floats

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T206-a
