Current Type:

Dc

Usage Design:

Wind speed and wind direction and hand held and altitude

Presentation Type:

Digital display

Display Type:

Liquid crystal

Features Provided:

Hand held

Product Name:

Pocket weather tracker

Special Features:

Desert tan color; night vision; soft carry pouch; neck lanyard; 2 aaa battery powered; digital compass, waterproof and floats; time and date; backlit display; automatic and manual data storage; data charting; five languages

Functional Description:

Used to measure true and magnetic heading, wind direction, crosswind, headwind/tailwind, altitude, pressure trend, barometric pressure, wet bulb temperature, pct relative humidity, heat stress index, dewpoint, density altitude, wind chill, air water and snow temperature c or f, current average and air velocity

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
