Overall Length:

7.797 inches

Overall Diameter:

1.375 inches

Case Material:

Aluminum

Case Surface Treatment:

Anodized

Trade Designation:

Tube

Radiation Type And Function:

Beta rays detects and gamma rays detects

Detecting Element Type:

Geiger tube

Controlling Agency:

Geiger-mueller

Identifying Number:

Bs-1 type no.

Preamplifier:

Not included

Connector:

Not included

Detecting Element Quantity:

1

Cable:

Not included

Case Window:

Included

Window Location:

Any acceptable

Material:

Mica

Material:

Mica

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T132-a
