Overall Length:

9.500 inches

Overall Height:

17.000 inches

Overall Width:

9.000 inches

Case Material:

Metal

Radiation Type And Function:

Neutron rays measures

Radiation Energy Rating:

10.0 mev per hour

Detecting Element Type:

Ionization chamber

Detecting Element Detachability:

Detachable

Preamplifier:

Included

Photomultiplier:

Included

Connector:

Included

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T132-a
