Presentation Type:

Meter

Scale Range:

+0.1/+100.0 percent of lower limit of explosibility single indicator single scale

Pointer Type:

Indicating single pointer

Product Name:

Gascope indicator

Special Features:

Dimensions 6.0 inches wide by 4.0 inches deep by 5.75 inches high; weight 6 lbs 5 oz; includes carrying straps for case; fixed calibration, dual range with one scale graduated from 0 to 100 lel; second scale reads from 0 to 100 percent by volume natural gas

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
