Overall Length:

4.400 inches

Overall Diameter:

0.530 inches

Case Material:

Aluminum

Case Surface Treatment:

Oxide film

Internal Battery Accommodation:

Not included

Indicator Type:

Meter

Radiation Type And Function:

X-rays measures

Detecting Element Type:

Ionization chamber

Special Features:

Instrument operates in conjunction w/jetds radiac charger type n 0. Pp-630/pd, meter range 0 to 50 roentgens, fountain pen shaped w/clip, microscopelens for reading scale

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T132-b
