End Application:

Radiation hazard meter

Special Features:

Measures linear and circularly polarized signals 1-18 ghz +/- 1.5 db, 0.3-1 ghz -1.0 to -4.0 db; power overload at 25 degrees c; 0.5 watts

Supplementary Features:

Manufacturers name: radiation probe

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T132-a
