Product Name:

Meter microwave survey portable battery-powered

Exterior Container Weight:

3.00 pounds

Special Features:

Battery 7.2v rechargeable, less than 20 hours per charge; displays fields in any unit: mw/cm², w/m², v/m, a/m, v²/m², a²/m², pj/cm³, and percent of international standards; most accurate non-ionizing radiation survey system; provides the broadest frequency coverage of both electric and magnetic fields

Unit Of Issue Cube:

0.25 cubic feet

General Description:

11.3 in. By 3.4 in. By 2.2 in.; microprocessor-based design; small; lightweight; ergonomic design; 4 line x 20 character dot matrix liquid crystal display w/back light; 22 key membrane keypad; probe cable input; fiber optic link input; rs232 interface; probe rf test sources (dual frequency); recorder output; one-touch auto zero; time and spatial averaging with data storage; calculate percent of standard; sophisticated data logging; multilevel adjustable audio output proportional to field strength; probe overload warning; operating temp: -10 degrees c to +50 degrees c; non-operating: -20 degrees c to +70 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
