Overall Length:

6.500 inches

Overall Width:

3.000 inches

Overall Diameter:

2.000 inches

Special Features:

Has audio signal and 2 flashing red led's; includes ear phone; rise time 15 seconds to 90% final value; accuracy 2% of reading; audial and visual alarms; powered by neda type 1604a9v battery (9.0 volt); range 0 to 50 ppm

Functional Description:

Pocket sized sensor designed to monitor for gas detection

Supplementary Features:

Manufacturers name: sulphur dioxide monitor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T132-a
