Presentation Type:

Alarm and digital display

Product Name:

Oxygen and combustible gas monitor

Special Features:

Measuring ranges: oxygen 0 to 30% by volume and combustibles 0 to 100% lower explosive limit (lel); alarms are audible and visual; approvals from ul and csa; weight 18 ounces; 2 different power sources depending on option chosen: option 1810-1527 power source rechargeable nickel cadmium battery pack operating time 10 hours; option 1810-1550 power source 4 aaa alkaline batteries operating time 8 hours; dual sensors; accuracy 0.5 to 1%

Supplementary Features:

Used to detect gases near fuel cells

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
