End Application:

Nsn 6650-01-235-1047 p/n ls-5 spectrometer

Usage Design:

Used with spectrometer to allow detection and qualification of simulant vapors during chemical warfare defense equipment testing

Special Features:

Apower 115/230 vac, 50/60 hz, 60 watts; dimensions: 12.500 inches width by 8.500 inches height by 16.500 inches deep; weight 26.0 lbs; has 3 digit readout to indicate the number of tubes indexed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
