**Overall Length:**

4.500 inches

**Case Material:**

Glass

**Detecting Element Type:**

Chemical reaction

**Detecting Element Detachability:**

Detachable

**Criticality Code Justification:**

Feat

**Special Features:**

Gacetone (Ir) detector tube; hermetically sealed; break off tips; chemically filled to produce a colorimetric indication; measurable concentration range 50-12000dpm; used w/pump, model 800, pn 7010657-1

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T132-a
