Overall Length:

4.500 inches

Case Material:

Glass

Detecting Element Type:

Chemical reaction

Detecting Element Detachability:

Detachable

Criticality Code Justification:

Feat

Special Features:

Gacetone (Ir) detector tube; hermetically sealed; break off tips; chemically filled to produce a colorimetric indication; measurable concentration range 50-12000dpm; used w/pump, model 800, pn 7010657-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T132-a
