Fragility Factor:

Moderately rugged

Component Document Origin:

Industrial

Document Source:

55659

Document Type:

Catalog sheet

Supply Items And Quantities:

Constant flow pumps 5; low flow controllers attached to type a protective tube covers 5; exhaust port fittings 5; filter cassette holders 5; tool sets 5; instruction manuals 5; 5 station delux tri-mode battery charge (115/230v) 1; carry case 1.

Usage Design:

On-worker or location air sampling for organic vapors.

Disposition After Initial Use:

Reusable

Special Features:

Meets stel, ceiling & twa sampling requirements; 5-5000 ml/min flow rate; maintains constant sampling rate; adjustable rate control; motor operated powered by rechargeable battery; tamper resistant control cover; 12 oz weight.

Supplementary Features:

Rfi shielded case.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
