End Application:

6680-01-458-2913, housing indicator; nimitz class cvn; high pressure filter assembly

Detecting Element Type:

Chemical reaction

Detecting Element Detachability:

Integral

Special Features:

Inner button is chemically treated to change from yellow color to grey if the carbon monoxide level exceeds .02%; outer circle is chemically treated to change from blue to pink in the presence of moisture in excess of 10% rh

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T132-a
