Product Name:

Photomultiplier base scintipack w/integral spectroscopy

Special Features:

Scintipack; with integral spectroscopy preamplifier and high voltage supply; compact; for scintillation detectors employing 10 stage pmt's that fit standard 14 pin sockets; internal, adjustable, high voltage bias supply eliminates high voltage cables; active bias network; anode timing output for coincidence measurements; low power consumption (240 mw) for portable applications; single cable connection between the base and the main amplifier location; dim: 2.2 in dia. By 8.7 in. Long

Unit Of Issue Cube:

0.015 cubic feet

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
