Overall Length:

8.500 inches

Overall Height:

2.500 inches

Overall Width:

3.250 inches

Case Material:

Any acceptable

End Application:

Used primarily for soil remediation in connection with hazardous materials spills and underground tank leakage

Detecting Element Type:

Any acceptable

Detecting Element Detachability:

Integral

Product Name:

Detector gas 8.5x3.25x2.5in incl passport pid ii

Special Features:

Kit includes passport pid ii, alkaline battery pack, pistol grip, 8 in. Probe, pvs case. Passport pid ii: monitor measures 0.1-10,000 ppm voc, 69 preprogrammed plus 10 user defined response factors; met class i, div I, 3 push buttons for simplified operation, graphic and numeric data display, peak, short term exposure (stel) and time weighted average (twa) measurements, up to 4,000 labels are available for storing sampling location info

Supplementary Features:

Multi meter O2 and explosive

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T132-a
