Overall Length:

4.650 inches

Overall Height:

1.900 inches

Overall Width:

3.000 inches

Detecting Element Type:

Ionization chamber

Voltage Rating:

4.8 volts

Connector:

Not included

Special Features:

Detector, protected catalytic bead for combustible gases, interchangeable electrochemical sensors for oxygen and toxic gases; model, pgm-50, multirae plus

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T132-a
