Overall Length:
15.500 inches
Overall Height:
7.500 inches
Overall Width:
14.000 inches
Product Name:
System sampling headspace hapsite on-site water/soil analysis
Special Features:
Battery operated headspace sampler for field use; convenient inlet system for analyzing soil, water, and solid samples; integrated with the
hapsite data system; modular, low-maintenance design for rugged environments; 24-volts, 30 watts; this system enhances the capabilities
of the hapsite portable gas chromatograph/mass spectrometer
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
