End Application:

Spectroscopy system, nsn: 6665-01-507-7617 and 6665-01-587-0702.

Product Name:

Calibration sources set of 2 fine and course f/spectroscopy

Special Features:

To be used with sam model, spectroscopy nuclear system; the fine energy calibration is done to allow the controller to understand the linearity of the naI detector (due to non-linear compression); needs only to be used once with a new detector; the course calibration is recommended prior to each use; calibrate 10uc, cs137 and non-calibrated 1 uc eu152. Can be used with both the sam 935 & sam 940 models.
