Overall Length:

3.300 inches

Overall Height:

0.800 inches

Overall Width:

2.500 inches

Product Name:

Dosemeter personal epd-n2

Special Features:

Designed for real-time dose control where neutrons are present; has 2 neutrons and runs more advanced than the epd-n1; provides separate, simultaneous measurements and has programmable alarms for photon and neutron doses and dose rate; applications include: dose control in nuclear reactor operation; routine photon dosimetry for personnel working with fissile material; post-accident dosimetry in nuclear installations; power supply is a single aa battery, 1.5v alkaline cell for continuous operation; includes high impact case

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
