Case Material:

Any acceptable

End Application:

Kit, gas free engineer

Detecting Element Type:

Any acceptable

Product Name:

Tube box, hydrogen flouride 0.5/a, 0.5-90 ppm

Special Features:

Material is hydrogen flouride 0.5/a: standard measuring range is 0.5-15 ppm/ 10-90 ppm: standard deviation is 20-30%; color change is blue violet to yellow; ambient operating conditions: temperature 10-40 c; absolute humidity is 30-80%: unit of issue is box (10) tubes in box

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T132-a
