Overall Length:

8.200 inches

Overall Height:

3.200 inches

Overall Width:

3.700 inches

Case Material:

Steel, corrosion resisting and plastic

End Application:

Ds1000 docking station

Detecting Element Type:

Solid state

Product Name:

Inavy)monitor w/data log

Special Features:

Gthis model contains an optional data logging pc boar (data logging kit) ; sensors: combustible gases, oxygen and toxic gases, methane or carbon dioxide; power sources: rechargeable, replaceable ni-cad battery pack or replaceable cell alkaline batter pack; battery life: ni-cad pack-10 hours, alkaline battery pack-13 hours; readout: alpha/numeric lcd; operating temperature: -4 to 122 degrees fahrenheit, with h2s sensor -40 to 122 degrees fahrenheit; alarm indicator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T132-a
