Overall Length:

8.200 inches

Overall Height:

2.000 inches

Overall Width:

3.000 inches

End Application:

C-17 se

Usage Design:

To detect fuel and vapor concentration levels in cavity betw secondary barrier and fuel tank

Detecting Element Type:

Ionization chamber

Product Name:

Minirae 2000

Special Features:

Can detect up to 100 ft; includes rechargeable external field replaceable nickel-metal-hydride battery; transit case 21 in x 17 in x 9 in; calibration supplies and accessories

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T132-a
