Overall Length:

3.750 inches

Overall Height:

1.100 inches

Overall Width:

2.000 inches

Detecting Element Type:

Chemical reaction

Detecting Element Detachability:

Detachable

Voltage Rating:

3.0 volts

Special Features:

Multi language; detects oxygen, relative humidity; backlit in low light, lcd, water resistant, rugged, internal vibrating alarm; op temp m20/p50 degrees c; w/stainless alligator belt clip; full function self test of battery, sensor and circuit integrity

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T132-a
