Case Material:

Plastic

Product Name:

Meter multigas detector sirius

Special Features:

Enables user to simultaneously monitor for volatile organic compounds w/ low vapor pressures while measuring for combustible, toxic, and oxygen deficient atmospheres within one unit; photo ionization detector w/ 10.6 ev lamp; 0 to 100 pct lel combustible sensor; 0 to 25 pct oxygen sensor; 0 to 500 ppm co sensor; 0 to 100 ppm hydrogen sulfide sensor; lithium ion battery pack; 10 ft polyurethane sampling line; 1 ft sampling probe; retractable carrying line w/belt clip; calibration kit; data log; lamp cap

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T132-a
