End Application:

Quantum sniffer qs-h150

Approximate Shelf Life:

1.0 years

Product Name:

Sample trap e-mode

Special Features:

Allows detection of parts-per-trillion (ppt) levels of explosive vapor and nanogram quantities of explosives particulates

Color:

White

Material:

Paper

Supplementary Features:

Distinguishable by the 3mm center hole and uniquely colored label on can; handling of sample trap should only be done wearing clean cotton gloves (p/n gl7500); target equip 12

General Description:

Sample trap for qs-h150 portable explosives detector

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
