

View Online at <https://aerobasegroup.com/nsn/6665-01-573-0316>

Special Features:

Fluorescence aerosol particle sensor flaps iii system; ultraviolet; 0.8 to 10um particle size range in 3 concurrent measurements; total flow rate 50 liters per min; 10/100 base-t ethernet, rs-232; rapidly detects biological agents w/particle concentrator to enhance reponse time for threat identification; 405 nm laser diode; lgth 10 in; width 15 in; ht 7 in

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
