Case Material:

Any acceptable

End Application:

Nsn 5180015637474

Usage Design:

Sensor known to have cross-sens.To gas other than target

Detecting Element Type:

Chemical reaction

Product Name:

Electrochemica (co) sensor module, smart ed, 500ppm, 4r +

Special Features:

Pressure range: atmospheric +/- 10%; drift: <2% signal/month; 2yr in air operating life; cal. Flow rate: 150cc/min; humidity operating 15-90% non-condensing; range 0-500ppm

Functional Description:

Presents specification, cross-sens. & calabration info.

Supplementary Features:

Resolution: 1ppm; temp. Range -4f-122f (-20c-50c)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T132-a
