Case Material:

Any acceptable

End Application:

5180-01-563-7474

Usage Design:

Known to have cross-sensitivity to gases other than target

Detecting Element Type:

Chemical reaction

Product Name:

Electrochemical sensor mod, smart, ec, clo2, 1ppm, 4r plus

Special Features:

Storage temp 32 degrees f to 68 (0 c to 20 c); temp range -4 degrees f to 122 f (-20 c to -50c) ; operating humidity 5 to 95% non-condensing; drift <10% signal/6 months.

Functional Description:

Presents specification, cross-sensitivity&calibration info

Supplementary Features:

Resolution: 0.1 ppm/ range: 0 to 50 ppm; resp.Time 30 sec

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T132-a
