Case Material:

Any acceptable

Usage Design:

Known to have cross-sensitivity to other gases

Detecting Element Type:

Chemical reaction

Product Name:

Electrochemical module sensor, smart ec, no, 250ppm, 4r plus

Special Features:

Storage temp 32 degrees f to 68 (0c to 20c) ; operating life: 2yrs in air; operating humidity: 15-90% non-condensing; resolution: 0.5 ppm

Functional Description:

Presents specification, cross-sens.&calibration info.

Supplementary Features:

Range: 0-250 ppm, maximum overload: 1, 000ppm; drift: <2% signal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T132-a
