Case Material:

Any acceptable

End Application:

5180-01-563-7474

Detecting Element Type:

Chemical reaction

Product Name:

Sensor module, pid, 10.6ev, 5000ppm, 100ppb, 4r plus m502

Special Features:

Zero drift: <10% singal/day; response tim (t90): 15 sec; gases detected: voc's; resolution: 0.01 ppm(isobutylene equivalent) ; storage life: 3 mon. In sealed container

Supplementary Features:

Bias/equilibration: no bias/10 min. After installation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T132-a
