**Case Material:**

Any acceptable

**End Application:**

518015637474 tool kit, urban ops

**Usage Design:**

Known to have cross-sensitivity to gas not targeted

**Detecting Element Type:**

Chemical reaction

**Product Name:**

Electrochemical module sensor, smart ec, pb 02, 30%, 4r plus

**Special Features:**

Range: 0 to 30% vol.; resolution: 0.1% vol.; temp range: -4 degrees f to 122 f (-20c to 50c); pressure range: atmospheric +/-10%; operating life: 2 yr in air; warranty: 2 years from date of shipment

**Functional Description:**

Presents specification, cross-sens.& calibration info.

**Supplementary Features:**

Calibration gas: ambient ai (20.9%oxygen) or 18% O2

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T132-a
