Case Material:

Any acceptable

End Application:

Nsn 5180015637474 tool kit, urban ops

Usage Design:

Know to have cross-sensitivity to gas not targeted

Detecting Element Type:

Chemical reaction

Product Name:

Protected catalytic bead sensor module, lel, 4 r plus

Special Features:

Gases detected: most combustible gases and vapors; range: 0-100% lel; resolution: 1% lel; response tim (t90) : 15 sec; bias/equilibration: no bias/10 min. After installation; storage life: 2yr in sealed ontainer

Functional Description:

Presents specificatin, cross-sens. & calibration info.

Supplementary Features:

Drift: <10% lel/month; p/ (s) 014-0114-000, c03-0911-000

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T132-a
