Overall Length:

6.8 inches

Overall Height:

4.3 inches

Overall Width:

7.0 inches

Case Material:

Steel, corrosion resisting

End Application:

6640-01-547-1760

Detecting Element Type:

Chemical reaction

Detecting Element Detachability:

Detachable

Voltage Rating:

Between 12.0 volts and 32.0 volts

Product Name:

Analyzer, gas

Special Features:

3 wire 4-20 ma gas transmitter, plug in smart sensors: detection type: combustable gases, catilitic or ir, toxic gases or oxygen, electrochemical: two set points to be set by user: three spdt relays, 5 amps at 250 vac

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T132-a
