Overall Length:

13.500 inches

Overall Height:

3.200 inches

Overall Width:

10.300 inches

Product Name:

: thermo scientific tva-1000b toxic vapor analyzer

Special Features:

Portable, over-the shoulder; simultaneous flame ionization detection (fid) and photo ionization detection (pid) or single fid detection; onboard datalogging capacity: 850-27, 000 points mode specific; probe display: bar graph & 4-digit lcd; response time: 3.5 seconds; alarms: low, high, stel; power: rechargeable nicd battery; fuel: pid: none required; fid: 99.99% hydrogen

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T132-a
