Overall Length:
13.500 inches
Overall Height:
3.200 inches
Overall Width:
10.300 inches
Product Name:
: thermo scientific tva-1000b toxic vapor analyzer
Special Features:
Portable, over-the shoulder; simultaneous flame ionization detection (fid) and photo ionization detection (pid) or single fid detection;
onboard datalogging capacity: 850-27, 000 points mode specific; probe display: bar graph & 4-digit lcd; response time: 3.5 seconds;
alarms: low, high, stel; power: rechargeable nicd battery; fuel: pid: none required; fid: 99.99% hydrogen
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T132-a
