Overall Length:

17.000 inches

Overall Height:

5.000 inches

Overall Width:

5.500 inches

Detecting Element Type:

Ionization chamber

Detecting Element Detachability:

Integral

Special Features:

Detects nerve, blood, blister and choking agents; detects gamma radiation; audible, visual and vibrate alarm modes

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T132-a
