Product Name:

Analyzer hazardous material identification hazmat id elite device code 20498

Special Features:

Fourier-transform infrared spectroscopy, diamond atr sensor w/ solid press and liquids well; touch to sample diamond atr sensor for direct sampling ip-67 rated and sealed for decon by immersion; operating temp: -4f to 122f; 4.3 in lcd color display for sunlight conditions; embedded rf modem, gps and usb support included; 10, 000 spectra for cbrn detection; weight: 5.05 lb; dimensions: 10.625 in x 5.625 in x 3.125 in; includes: transport case, two rechargeable lithium ion batteries, external battery charger, power supply, cassette for disposable 123a batteries, and performance validation sample; color: green

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T158-j
