Case Material:

Plastic

Radiation Type And Function:

Neutron rays detects and neutron rays measures and gamma rays detects

Preamplifier:

Included

Product Name:

Fission meter

Special Features:

System includes 30 each he detectors at ly 7.5 atm pressure, multiplicity electronics, rugged hand-held computer (tds ranger), fission meter software, and waterproof nylon carry bag for protection of the detector panels

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T132-a
