Scale Division Quantity:

200000

Accessory Components And Quantity:

100 mg calibration weight, 1, plastic tweezers, 1, spare light bulb, 1, line cord, 1, plastic balance rests, plastic cover 1

Weighing Capacity:

200.0 grams

Beam Material:

Any acceptable

Panwidth:

4.750 inches

Stirrup Height:

7.500 inches

Pan Stirrup Arrest Type:

Any acceptable

Scale Adjustability:

Adjustable

Quick Weighing Device:

Not included

Case Frame Material:

Aluminum

Case Floor Material:

Aluminum

Case Access Method:

Counterpoised front door

Err Default:

Err default

Sensitivity Rating:

0.1 milligrams

Special Features:

7-digit in-line readout

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T137-c
