Current Type:

Ac or dc

Operating Temperature Range:

+30.0/+130.0 degrees fahrenheit

End Application:

Communications and data systems

Output Voltage Rating:

3.0 millivolts

Special Features:

Max i/p 20.0 vac or vdc; class of service - compression; two bridges; bridge res 350 ohm; class 0.25 pct; cable conn ten feet

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503e0
