

View Online at <https://aerobasegroup.com/nsn/6670-01-389-6170>

Current Type:

Ac/dc

Environmental Protection:

Dustproof and moisture proof

Operating Temperature Range:

+10.0/+50.0 degrees celsius

End Application:

Aircraft weighing system

Input Frequency Rating In Hertz:

60.0

External Dc Operating Voltage In Volts:

12.0 1st voltage and 24.0 2nd voltage

External Ac Operating Voltage In Volts:

120.0 1st voltage and 220.0 2nd voltage

Special Features:

5, 000 lb. Digital output load cells: center of gravity computation; 4x20 lcd display; self-contained printer; ac100 cpu, interconnect cables, jack point, stud and ring adapters, power suply, manuals, accessory kit and carrying case.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A503e0
