Operating Temperature Range:

-30.0/+130.0 degrees fahrenheit

End Application:

Assembly, cross deck winch left hand, p/n amd-1379l aboard 225 ft wlb coast guard vessels

Special Features:

Capaci type 0-6250 pounds tension or compression range; overload 150% of capacity without damage, 300% without failure; electric connection potted cable 6 ft long; output 4-20 mamp; excitation 18-28 volts dc; end connection female thread 1-14 uns; protection nema 4x

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503e0
