Overall Length:

20.000 inches

Overall Height:

3.000 inches

Overall Width:

12.000 inches

Product Name:

Calibration adapter plate

Special Features:

Calibration adapter place c/o jig plate aluminum 2x12x18, rin-steel plate 5/8"x6", rubber pad 3/4x11x17

Functional Description:

Calibration plate accommodates the force calibration standard transducer during the calibration of the ac30-60 aircraft weighing scale

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
